

Breathe freely

# SafeMask<sup>®</sup> FreeFlow<sup>™</sup>

Procedure Earloop Face Masks  
with Air Space<sup>™</sup> Technology

**Breathe Easy. See Clearly.  
Stay Comfortable.**

Innovative contoured pleats create a unique pocket that allows air to flow freely while providing optimal filtration. Added comfort features include a fog-free nose strip and soft, strong, ample-length earloops. FreeFlow masks are like a breath of fresh air.

Available in 4 colours:

## FEATURES

## BENEFITS

Innovative Air Space™ Technology

Contoured pleats create a unique air pocket for breathability

Non-woven, spun-bonded outer shell

Maximum fluid resistance without compromising breathability; will not lint, tear or shred

Highest quality filter layer meets ASTM F2100 Levels 1, 2 and 3 performance requirements

Optimal filtration for every situation or procedure

Spun-bonded polypropylene, white, dye-free inner layer is fluid resistant and water repellant with a high wicking capacity

Keeps face clean and dry

Soft, stretchy, ultrasonically sealed earloops attached to the outside of the mask

Prevent pulling and irritation

Adjustable, extra-length, enclosed aluminum nose piece with unique fog-free strip

Easily adjustable to form a strong seal across the nose for personalized fit; prevents fogging

Ultrasonically sealed mask body

Eliminates rough edges that can irritate and scratch; ensures durable construction and eliminates holes and defects
