

SafeMask® Premier

Pediatric Procedure Earloop Face Masks

**The first ASTM Level 1 mask designed
to protect your youngest patients**

Adult-level protection in a mask made just for kids

When a mask is too big, it creates gaps that allow contaminants to enter and escape. That is why Medicom put its 30 years of infection control expertise into developing a Level 1 face mask designed specifically to fit smaller faces. Our pediatric mask provides the reliable protection and enhanced comfort that children need.

Our ASTM Level 1 mask keeps kids safe and comfortable

FEATURES	BENEFITS
Kid-friendly polka dot design	Makes wearing a mask fun
Designed specifically for kids aged 4–12 years	Ensures optimal respiratory protection by conforming to small faces
Soft, non-woven material	Provides enhanced breathability and comfort
Smooth, stretchy, ultrasonically sealed ear loops	Prevent irritation and allow easy removal without self-contamination

Better fit
means better
protection.

2038
50 masks/box
10 boxes/case; 500/case

Adult masks cause gaping on smaller faces

Pediatric masks form an optimal fit for better protection

A child wearing the face mask should be under adult supervision.

Like you, we never compromise. We use carefully selected materials and engineer our products to offer protection you can count on. We have been providing peace of mind to health care professionals for over 30 years. We take pride in the protection we offer, so you can take pride in yours.
